## A Powerful, Personalized Inpatient Drug and Alcohol Treatment Program in Salt Lake City Utah

---

With deep roots in beautiful Salt Lake City, Utah, at [Next Level Recovery](#), we provide inpatient and outpatient drug and alcohol treatment for those struggling with addiction. ***Our treatment modalities give us a colorful palette to help each person create a new life, one in which hope and optimism arise out of despair, and solid life skills stand in the place of dysfunction.*** We offer free assessments and use our experience to create a plan of action. People come in the door knowing there is a customized, personalized route for them to take while they are here. We offer inpatient [alcohol rehab](#) and inpatient [drug rehab](#) with our own powerful perspective.

## Getting it Right with Professional and Personal Awareness

---

We recognize that, just as each person's treatment needs are unique, there are many concerns which may need attention for our work to be powerful. We address issues of [neurodiversity](#), for example – if challenges of autism spectrum diagnoses, ADHD, or other ways of looking at life exist, we are prepared to work in that space.

### Our treatments involve the following:

- Group talk therapy,
- Structured cognitive-behavioral therapy (CBT),
- [Recreational therapy](#),
- and other methods which may or may not be right for each client.

## Giving Recovery Roots

---

After treatment, some clients may consider a sober living home, and we have connections in the community where they can renew their lives with work, education, and a lifestyle that supports the changes they've made. ***We make a commitment, person to person, to go beyond generalized treatment.*** Our years of engaged experience make that possible. If you're wondering, is there a unique inpatient drug rehab near me? Look to us in Salt Lake City, Utah.

## Visualize Recovery with Us

---

What comes to mind when you think inpatient rehab? We don't fit the stereotypes. Our high-quality, [affordable drug and alcohol treatment programs](#) reflect our commitment to and love for each individual. Our years of experience mean that we know what our clients are going through, from the social problems and personal issues to the family concern and all

that pain which goes with it. ***We have seen so many people change their lives with our help that we know it's possible for each person who comes through our door.*** We have seen lives brought low by:

- Alcoholism in many disguises
- Opioid addiction and abuse – heroin, prescription pain medications, suboxone
- Stimulants —cocaine, amphetamines, methamphetamines
- Sedatives – Xanax, Klonopin, Valium
- Marijuana

***We know that each person has unique addiction experiences and challenges, and a personal road to recovery.***

## Treatment at Next Level Recovery in Utah

---

**One-on-one therapy** puts clients in personal touch with an experienced therapist. Mutual accountability is key, and with a personal therapist ***we can get to the root of addictive behavior*** and get to work on it. Only by changing the behavior is life change possible. We help patients confidently overcome their addictions by seeing the change in themselves. Are you wondering “Is there an effective inpatient rehab near me?” ***We're here, during and after your program.***

**Group therapy** gives the relief of hearing others' stories and knowing that none of us are alone on our journey. While other inpatient clients don't have full success stories to share, everyone has seen hope and when they share their own piece of the puzzle, the group rises together.

## The Road Continues

---

Follow-up after the inpatient stay offers a steady hand during critical first steps, initial self-doubt thoughts, and other post-inpatient challenges. One-on-one and group therapy options help keep life focused on recovery. Our follow-up is as personalized as our treatment programs.
